### Spelling

Circle and correct the words that are incorrect.

Every night I dreem about dogs and cats.

I like sleping in when I don't have to go to school.

My brother has forgotten his dreems before he gets out of bed.

Sometimes I have nightmares about monsters. They are very scarey.

At night I like looking at the starrs and plannets.

### Sleeping and dreaming research

Ask your family and friends about sleeping and dreaming.

What time do they usually go to bed?

How long do they usually sleep?

How long does it usually take them to fall asleep?

Do they remember their dreams every morning?

Are their dreams in color or black and white?

How do they describe their dreams?  
(exciting, vivid, dull, boring, weird, interesting, nightmares)

Write about the most interesting things you found about sleeping and dreaming?

### Number cruncher

Justine sleeps for 8 hours five nights a week and 9 hours for the other two nights.

Lilly sleeps for 9 hours five nights a week and 7 hours for the other two nights.

John sleeps for 7 hours five nights a week and 10 hours for the other two nights.

Who sleeps the most in a week?

Who sleeps the least in a week?
