

Data & Subtraction

Name:

Date:

1. Continents- Land Area

Continent	Area- km ²
Asia	44,500,067
Africa	30,302,856
Europe	9,957,745
Australia	7,687,676

From the continents listed in the table, which is the second largest?

- Australia Africa
 Europe Asia

2. What's the difference in size between Europe and Australia?

Don't use commas in your answer.

km²

3.

	A	B	C
1	Name	Date of Birth	Height -in
2	Alice	12 Dec 93	50.8
3	Tony	18 Nov 93	58.6

In what year will Tony turn 21?

- 2013 2015
 2014 2016

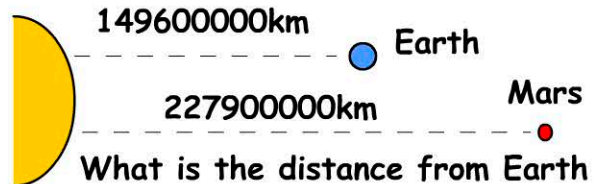

4. What information would you most likely find in cell C5?

- 12 May 94 apples
 whale 54.7

5. What data would be written in row 5?

- Favourite animals. Information about another student.
 Student ages D.O.B.

6.

What is the distance from Earth to Mars.?

- 78300000km
 122300000km
 82300000km
 89300000km

7. House in Huder St costs: \$267,750

House in Upton Rd costs: \$312,255

What is the price difference?

- \$155,505 \$44,505
 \$44,000 \$44,450

8. 1 million - twenty thousand.

- 980,000 988,000
 98,000 98,800

9. Population of the USA

(1994) 260,204,357

(2008) 301,139,947

By how much did the population rise

between 1994 & 2008?

(no commas please)

10. 1000000 - 101 =

(no commas please)
