Do you know any more interesting facts about the colour orange?

Orange Foods

There are several orange foods such as oranges and pumpkin.

List and draw some more orange foods.

Research

How many national flags can you find that have orange in them?

Draw some of these flags.

Opposites

Orange's complimentary colour is blue. (Orange and blue are opposite on the colour wheel) When orange and blue are placed next to each other, each colour seems to 'vibrate'.

Create a pattern or design using just orange and blue.

Writing a Procedure

Goal: How to Peel an Orange.

Procedures are instructions that tell the reader how to do something.

Firstly, list all the things you need (ingredients, tools and equipment).

Give clear detailed step by step instructions that tell the reader what to do. (Tip - use action verbs such as cut, peel and slice)

Make sure the steps are in the correct sequence and clearly labelled Step 1, Step 2, Step 3 etc.

Use drawings and diagrams if necessary.

Number Crunchers

Jerry has a box of oranges to share with his class. There are 64 oranges in the box.

If there are 32 students in Jerry's class, and the oranges are shared equally, how many will each student get?

If Jerry shares the oranges with just the 16 boys in the class, how many oranges will each boy get?

How many oranges would each student get if Jerry had brought 3 boxes to school?
