

Mass

***USE A METRIC TONNE = 1000kg

Name:

Date:

1. How many kilograms in 1.25 tonne?

- 12.5 1250
 125 12500

2. There are grams in 0.75 kilograms.

There are 16 strawberries in the basket.

**total weight = 410g

**basket = 90g

3. What is the total weight of the strawberries?

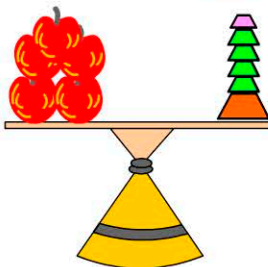

- 320g 500g
 410g 90g

4. What is the average weight of each strawberry?

- 5.6g 25.6g
 31.25g 20g

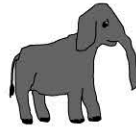

5. Approximately how much would 16 apples weigh?

50 g 100 g
 500 g

- 2660g 2850g 3040g 3230g

weight of animals

4662kg

772kg

195kg

27kg

125kg

74kg

6. How many pigs weigh the same as an elephant?

- 62 64
 63 65

7. In tonnes the difference in weight between an elephant and a giraffe?

- 3.89 0.389
 3890 5.434

8. What is the combined weight of all the animals?

- 585.5t 58.55t
 5.885kg 5855kg

9. $3.052\text{tonne} + 634\text{kg} + 8000\text{g} =$

kilograms

10. $\frac{1}{4}\text{tonne} + 3.7\text{kg} - 5700\text{g} =$

kilograms
