

# Where is Teddy?

adult guided activity

Find a stuffed toy (or similar) that you can use to put in different spots around your home.

Keep a record by using a mobile device or a camera to take photos of the toy in the different spots (optional).

Print the photos and write a caption under each photo describing the toy's position (optional).

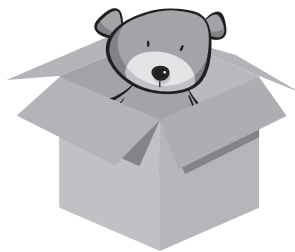

Place the toy:

Under a table, inside a box, on top of a shelf, in front of the couch, behind a chair, next to a bed, leaning against a wall, in between two other toys, close to you, far away from you.

Here is my record:

Teddy is under the table.

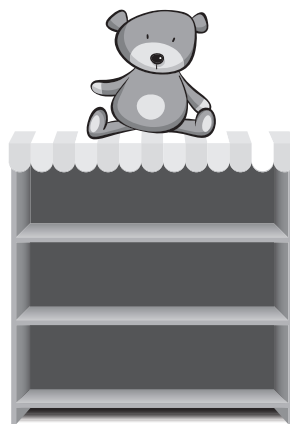

Teddy is inside the box.

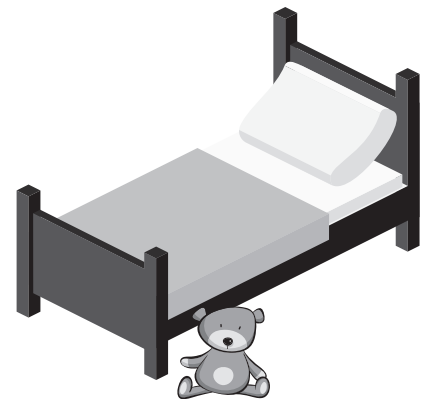

Teddy is in between two dogs.

Teddy is behind the chair.

Teddy is on top of the shelf.

Teddy is next to the bed.
