

Name: _____

Tables: Missing Numbers

$$\begin{array}{l} 8 \times \square = 56 \\ 5 \times \square = 45 \\ 10 \times \square = 80 \\ 9 \times \square = 63 \\ 4 \times \square = 40 \\ 7 \times \square = 70 \\ 2 \times \square = 20 \\ 4 \times \square = 36 \\ 7 \times \square = 35 \\ 7 \times \square = 42 \\ 8 \times \square = 56 \\ 5 \times \square = 25 \\ 4 \times \square = 20 \\ 8 \times \square = 56 \\ 2 \times \square = 6 \\ 2 \times \square = 12 \end{array}$$

Working Mathematically

- 1) There are 30 children in the class. 6 children sit at a table group.

How many table groups can we make? _____

- 2) Sally spent 21 days travelling through China .

How many weeks was this? _____

- 3) How many rows of 5 can I make with 25 blocks.

- 4)  If parrots are always sold in pairs...

How many pairs are there if 18 birds in total are sold? _____

- 5) How many groups of 3 can be made from 24 beanbags?
