

Comparing Size

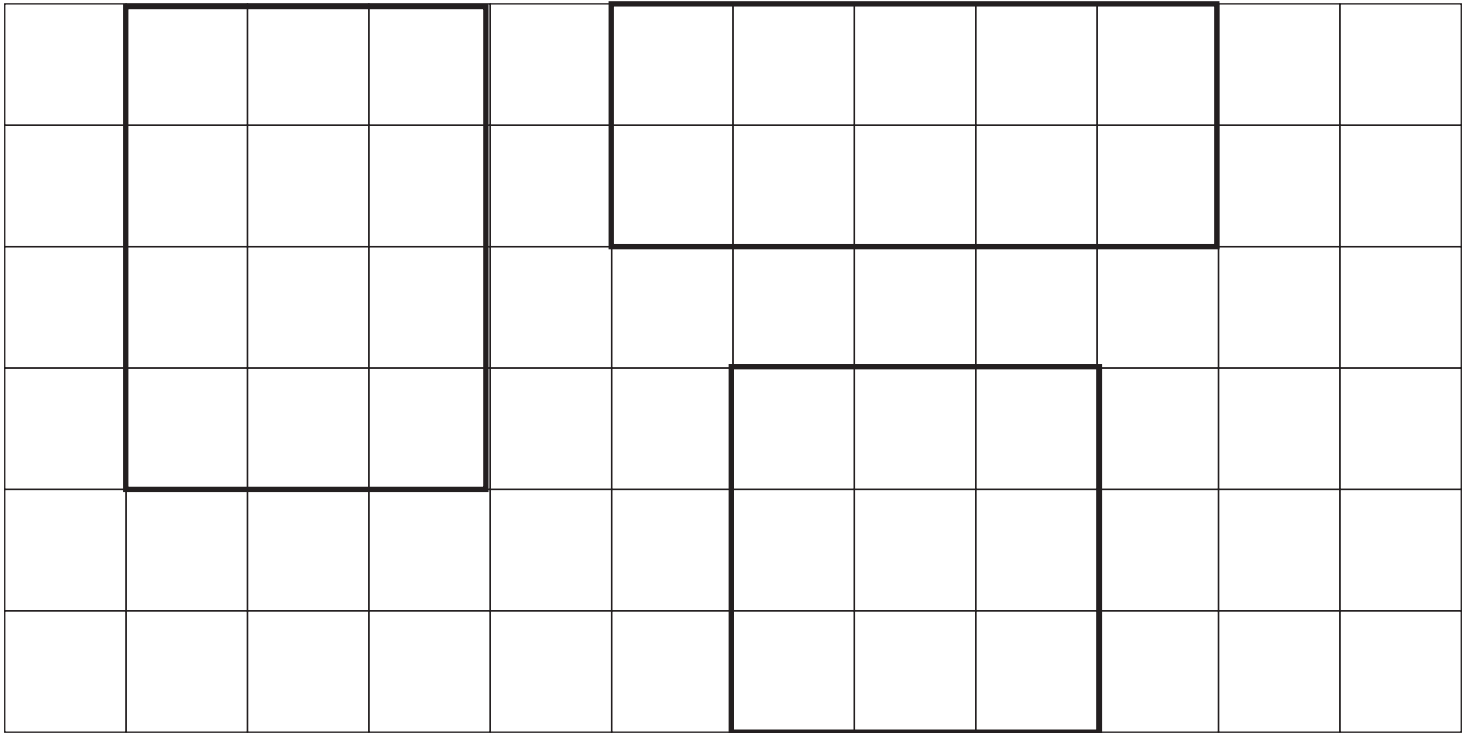

adult guided activity

Use the grid to compare the size of each shape by counting the number of squares.

Colour the largest shape using a blue pencil.

Colour the smallest shape using a green pencil.

Colour the shape that is the same size as 10 squares on the grid using a red pencil.

Draw a square that is the same size as 4 squares on the grid.

Draw a rectangle that is the same size as 15 squares on the grid.
