perimeter = 8m
3m
0 11m
0 24m

12in 2in

perimeter = in

What is the perimeter of a square that has 8cm sides.

- O 32cm
 - O 56cm

O 38m

○ 34cm

O 22m

64cm

Perimeter =

- O 32in
- 34in
- O 33in
- O 35in

The perimeter of a pentagon with 6 inch sides is:

- O 20in
- 30in
- O 25in
- O 35in

Calculate the length of the missing side. $\frac{?}{3}$ perimeter = 22

- \bigcirc 37
- \bigcirc 9
- 0 7
- 06

Henry walked around his paddock twice. How far did he walk?

- O 700ft
- 450ft
- O 600ft
- O 350ft

What are the missing sides. Choose two answers.

? perimeter = 24
