

Time

Write the years in a list starting with the year that you were born to the present year.

Next to each year, write some important things that happened to you or your family in that year. For example, you might include when you started talking and walking, when you started school, or when a brother or sister was born.

Draw pictures to illustrate some of the events.

Number Crunchers

Mark the time on the clocks

Mary arrived at school at 9 o'clock

She had lunch at 12 o'clock

She arrived home at 5 o'clock

Write the missing months.

January

March

June

October

December

How long can you?

With a partner, time how long you can do the following tasks.

Hold your breathe?

Balance a ball on your finger?

Keep a balloon off the floor just using your foot?

Balance a balloon on your nose?

Keep a balloon off the floor just using your head?
