

Target Throw

Play in teams.

Each team has three beanbags and a bin or a basket for a target.

The first person in each team steps up to the starting line and has three tries to toss the beanbags into the bin. They collect the beanbags, then the next person has three throws. Each successful throw scores a point. The team with the most points wins.

Show Jumping Bunnies

Play in relay teams.

Set out an end marker, a starting line and 3-4 objects a distance apart for each team. Each team lines up. The first team member 'bunny hops' over the obstacles, runs around the end marker and returns to the end of their team line. Then the next team member has a turn at being the bunny. The fastest team to complete the course wins.

(To bunny hop, place your hands on the object then jump your legs over.)
