

# Data & Graphs

Name:

Date:

Country	Summer	Fall	Winter	Spring
Australia	27	20	18	23
England	19	16	11	17
India	28	21	19	24

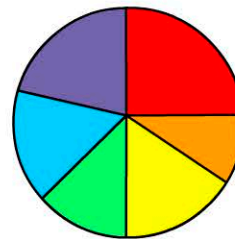

Average seasonal temperature in degrees Celsius

- The data in the table presents information about:
  - Average rainfall
  - No. of cities
  - Population
  - Average Temp.
- Australia's yearly average =?  degrees Celsius
- Which country has an average winter temperature of 19 degrees Celsius?
  - India
  - N.Z.
  - Australia
  - England

- In which month was gold at its highest price for the year?
  - December
  - May
  - November
  - June
- What is the difference between the highest and lowest price?
  - US\$10
  - US\$60
  - US\$40
  - US\$80

USA - Exports

- Limestone (\$600 million)
- Wool
- Oil
- Timber
- Sugar Cane
- Wheat

- What was the total amount of export sales?
  - \$600 million
  - \$1800 million
  - \$1200 million
  - \$2400 million
- Which amount is closest to the export sales for wool?
  - \$250 million
  - \$350 million
  - \$300 million
  - \$400 million
- Which resource made closest to \$600 million dollars?
  - sugar cane
  - wheat
  - timber
  - oil
