

# Data & Subtraction

Name:

Date:

## 1. Continents- Land Area

Continent	Area- km <sup>2</sup>
Asia	44,500,067
Africa	30,302,856
Europe	9,957,745
Australia	7,687,676

From the continents listed in the table, which is the second largest?

- Australia       Africa  
 Europe             Asia

## 2. What's the difference in size between Europe and Australia?

Don't use commas in your answer.  km<sup>2</sup>

## 3.

	A	B	C
1	Name	Date of Birth	Height -cm
2	Alice	12.12.93	127
3	Tony	18.11.93	129

In what year will Tony turn 21?

- 2013                   2015  
 2014                   2016

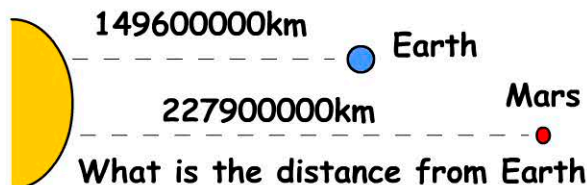

## 4. What information would you most likely find in cell C5?

- 12.05.94       apples  
 whale             139

## 5. What data would be written in row 5?

- Favourite animals.       Information about another student.  
 Student ages               D.O.B.

## 6.

What is the distance from Earth to Mars.?

- 783000000km  
 1223000000km  
 823000000km  
 893000000km

## 7. House in Huder St costs: \$267,750

House in Upton Rd costs: \$312,255

What is the price difference?

- \$155,505       \$44,505  
 \$44,000       \$44,450

## 8. 1 million - twenty thousand.

- 980,000       988,000  
 98,000         98,800

## 9. Population of Australia

(1997) 18,107,568

(2004) 20,002,463

By how much did the population rise between 1997 & 2004?

(no commas please)

## 10. 1000000 - 101 =

(no commas please)
