Measuring in Millimetres

A square is a shape with four equal sides.
Draw two squares. The first with 3 centimetre (3 cm) sides and the second with 4 ½
*centimetre (4.5 cm) sides.*
The starting point for each shape is shown.

30 mm

A rectangle has four sides. The two opposite sides of a rectangle are the same length.
Draw a rectangle with two 42 millimetre (42mm) sides and two 7 centimetre (7 cm) sides.
Make the 7 cm side go across the page.

Draw a triangle with three equal sides. Make each side 6 ½ centimetres (6.5 cm) long.

**On each shape label the length of each side in millimetres.
