

Name: _____

Mixed Tables 5 x - 12 x

$7 \times 11 = \underline{\quad}$ $8 \times 10 = \underline{\quad}$

$6 \times 11 = \underline{\quad}$ $9 \times 7 = \underline{\quad}$

$10 \times 10 = \underline{\quad}$ $10 \times 12 = \underline{\quad}$

$11 \times 12 = \underline{\quad}$ $9 \times 9 = \underline{\quad}$

$9 \times 12 = \underline{\quad}$ $9 \times 6 = \underline{\quad}$

$7 \times 6 = \underline{\quad}$ $9 \times 9 = \underline{\quad}$

$11 \times 6 = \underline{\quad}$ $9 \times 11 = \underline{\quad}$

$7 \times 7 = \underline{\quad}$ $12 \times 11 = \underline{\quad}$

$6 \times 11 = \underline{\quad}$ $9 \times 11 = \underline{\quad}$

$9 \times 8 = \underline{\quad}$ $6 \times 10 = \underline{\quad}$

$8 \times 6 = \underline{\quad}$ $11 \times 8 = \underline{\quad}$

$6 \times 6 = \underline{\quad}$ $11 \times 10 = \underline{\quad}$

$11 \times 6 = \underline{\quad}$ $6 \times 7 = \underline{\quad}$

$12 \times 9 = \underline{\quad}$ $10 \times 7 = \underline{\quad}$

$11 \times 9 = \underline{\quad}$ $6 \times 6 = \underline{\quad}$

$12 \times 12 = \underline{\quad}$ $8 \times 6 = \underline{\quad}$

$8 \times 10 = \underline{\quad}$ $8 \times 8 = \underline{\quad}$

Working Mathematically

- 1) Our teachers bought 8 dozen eggs for year 5 camp.

How many eggs did they buy? _____

- 2) A soccer team has 11 players.

How many players on the field during a game? _____

- 3) Seats in the hall are arranged in rows of 11.

How many seats in 11 rows. _____

- 4) Each cabin sleeps 12 children.

How many children can 12 cabins accommodate? _____

- 5) During our excursion to the zoo nine groups of eight children and six teachers attended.

How many people were on the excursion? _____
